OK, my MMOG that I'm making, will have ads on it so that I can make money (No pop-ups!) just on the sides, and bottom of the page. And it will be like Kings of Chaos where each time you refresh the pages it changes the ads, so I was wondering if anyone would like to advertise their site for free during the alpha and beta tests? So far I just have one set up, and it will be on the right of the page no more than 120x400 pixels in width x height. The alpha test should, if all goes well today, begin later this evening, or tomorro. I have a few more things to finish up still though, so I just hope I don't run into any more problems. I also need like 20 people or so that would want to alpha test it currently, and try to screw it up, hack it, whatever because if there are security problems, or anything else I need to know. If you would like to advertise, or sign up for the alpha test, e-mail me at [spreegem@gmail.com](mailto:spreegem@gmail.com).

EDIT: Changed Title to a more suitable one

EDIT2: People like free stuff

If you want me to run an ad, you have to e-mail me a 100x400 tower banner to put on. Also, if you want to break it, you'll need to know where it's located, and you'll probably want an account to screw around with, which you must also e-mail me for, because presently I am making activating the accounts manually.

EDIT: Sorry, Naamloos, didn't see your post before, yes, it is a Massivley Multiplayer Online Game, I'm not quite sure what to categorize it as though. Strategy, Role Playing, not sure. . .

PS. If I don't receive an e-mail you can't play, or advertise.

Just a small update on things (I'm actually bumping this) There will also be 120x120 ads below the navigation bar, and below that text ads. In the center content box at the bottom will be a 400x120 banner ads width by height. So if anyone wants to advertise for free in any of those areas just send me an e-mail. You can advertise in all of those areas if you would like. Also, sorry I didn't get the ship creation thing done, I had a couple problems on a couple pages, one of which I just figured out. But I am grounded Today, tomorrow and wednesday, so I can't work on it until thursday, so for now I must be content writing stuff down for when I can work on it again. I'm sorry to the three people that signed up for the alpha. I said I was going to get it done over the weekend, but I couldn't because of the problems I had.
