...And it looks like this one will be easier to clean up because all the names are similar.. The last one look less thn 2 seconds, literally.

By the way, someone should add one of those images where you have to type in the code in the image to be allowed to make an account. That should easily thwart this.

The image verification thing is built into phpBB, it just needs turned on in the administration panel.

The version of phpBB I am running was made before the image verification. You guys voted to keep the look and feel the same instead of having more security.

But man, he got me again...

Deleted rows: 14323 (Query took 0.7982 sec)

SQL-query:

```
DELETE FROM users WHERE user_id >=5091 AND user_id <=19413
```

I'm SO impressed, man, really. I'm also impressed that you used your real IP: 69.198.63.78

I made my living in High School beating the hell out of 300+ pound lineman. I'm only 205, i'll let you decide whether I could do damage to someone or not. Then again, 205 pounds going at a rate of speed of 4.6 seconds for every 40 yards is gonna hit anything damn hard.

btw, I also benched 250lbs. my Senior Year in High School.
