Ok, I uninstalled renegade (because renguard messed it up) and then tried to install it again. When the movie finished playing for the installer, the box with the license agreement thing had no text in it. The buttons had no text, notihng did. I guessed the buttons and installed it but when i got into the game the menu had no text either! Now I cant play renegade... PLEASE HELP ME!!!

scratch37(because renguard messed it up)
There's just a little irony in that post
