I just installed renguard for the second time (the first time didnt really work out to well)

Now when i go to start renegade i get a message that says:
CRC Mismatch Error

Then when i try to play game2.exe it says:
RenGuard not installed correctly, re-install it

so i did what the message said, and re-installed it, and i got the same messeges.

can any one help me

Subject: installation error

Sounds to me like somehow game2.exe became another copy of RenGuard. If you have an unmodified (or a no-cd) version of game.exe, rename it to game2.exe and copy that to your Renegade directory. Otherwise, reinstall.
