...Is a post announcing that you are leaving (Unless of course you hate me).

The only reason I was sticking around here lately was to get my post count to 2000. God knows that the "Should we ban ACK" thread helped in this . Last summer, I got it to 1000, left the forums and didn't come back for about 8 months. Now that I got it up to 2000 and I'm leaving the forums permanently. Not much happens here except for flaming and retarded posts anyway. (At least what I see.) If you are interested to know why I'm not going to hang around here anymore, it's because I think this place consumes too much time, and I'd prefer to find new games to play in place of Renegade. There isn't as much "life" in the community anymore (not as much as there was), and it's a first step to moving on. I will still play Renegade, but not as much as I used to play. I haven't had enough time to play as much as I used to anyway. I guess I'll find a new game eventually. We'll see. Until then I'm just going to be hanging out on GSA as I usually do!

I'd like to apologize to some people also:

I've acted like a real asshole to many of the people here at some point. Not because I'm some kind of cyber bully or a raging faggot that likes to stir up trouble, but that's sort of how I am. I swear a lot in daily life, and that carried over here. So I didn't mean to offend anyone in any way, but if I did, I'm sorry for that.

Icedog - We got into a little tiff a while back - No hard feelings.

MrBob - We got into some religious debates in the Politics forums - Again, no hard feelings.

ACK - Ummm..... Nevermind

Crimson - You've been very patient/fair with me. That whole cheating thing, wasn't just some random tripe that I pulled out of my ass, but I didn't have bad or malicious intentions in saying all that I said. I dropped the whole deal with it though because whether you did host a cheat website or not, it doesn't matter because you generally didn't have a bad intent for the community anyway. I guess I should have thrown a little more respect your way, because I have acted like an asshole here, and I did/do play on your server occasionally, and I didn't get banned.

Quote:

As it stands, I have actually talked to ACK about his behavior and he has agreed to chill out and such.

...And good call on that, Crimson

So generally, sorry for my behaviour if it offended you.

To those about to post "Well I don't care that you leaving" or "Who are you" or even just "Just leave and don't make a fuss about it," well this is for you:

IF you post any of those things, then you are a raging faggot that should go and sit in the corner for being a dumbfuck.

If you don't care that I'm leaving, then piss off and don't reply.

If you don't know who I am, then piss off for not being able to see any of my 2000 posts.

If you tell me not to make a fuss about my leaving, go fuck yourself because I had something to say before I left.

That's about all I have to say. So goodbye to the community! It's been VERY fun hanging out with you all.

-IRON FART

Who are you, and why are you making a topic about leaving, why don't you just leave and not make a fuss about it already! Just Kidding. . . Sad to see yet another Renegade player leaving the community, however this game is getting old, I have been playing other games such as UT:2004, World of WarCraft, COD:UO, HL2, and others. However Renegade is just one of those games that you must play once in a while.

I'll miss you.

If you can get to 1000 posts on my forum, that would be great,

Anyways, I'm sad to see you go.

IRON FARTMrBob - We got into some religious debates in the Politics forums - Again, no hard feelings.

Oh yea, now I remember (maybe). No hard feelings either. Remember, God still loves you.

gbull You were the only "liberal" I could stand.

Ditto. Probably because he wasn't just interested in politics. Focusing on politics too much wears your body, dopes your mind, and dangerously raises your blood pressure. I know the feeling, I was an "activist" myself. Maybe another "liberal" (hint hint) could be a little less involved.

I can't believe I still come here every once in while. I've been WIndows-free for almost a year. Heck, I don't even play games anymore. It's the community that's keeping me here. But as you said, it's dying out. How long can a game last? It was released in 2001, and we're still here pushing four years. I think many people here have a greater common interest than a game. It's sad to see you go Iron.

By the way, you want a blog? I've been trying to find a use for it. C'mon, every liberal needs a blog.
