I tried the clan pages and they're offline.

Now I don't mean there's no pics. I mean that it doesn't let you view the pages.

Check it out. What can be done? Has EA been informed? \*cough\*not that they'd do anything about it though\*cough\*

Yes, they don't work at all, and Yuri has said he has no idea if or when they will work again.

Keep bitching to EA. If we stop, they'll cite it as evidence to support their lack of care/support. If everybody uses XWIS, they'll say "It's no longer necessary to support WOL so we stopped"... for example. Not trying to hate up on XWIS, I use it when WOL is down.

So no hope of getting them fixed then...too bad

Does someone have good connections to EA? Maybe he'd be able to talk them to fixing things?

Crimson maybe?
