I don't believe there are any cheat codes for Renegade. If, for some reason there are, then it's news to me

The only thing I can think of is Golden God, which is specifically a cheat for SP. But no, there are no "cheat codes" for Renegade.

that is F8-> type in console 'extra' -> hold alt button while using Perchase Terminal.

But that can only be used in non laddered games, and isn't a real cheat.

For cheats for SP there are no codes, but maybe some mods.

I have a REGEDIT, on a cd somewhere.
Wich gives you all MAP's unlocked and 5 Star all on commando.
I dont feel like looking for it but i have it somewhere.

I think you should consider that as a ALL-level cheat.

I found it on some site like 2 years ago

Regedit is a windows tool, you just go into Run and type regedit.

I'm pretty sure there was supposed to be a built in god mode too, since in regedit you can ser "forcegod" to 1, but when you get ingame it says "god" is not a recognized command.
