Yeah! He will host anything! Even if you archive a virus with a readme inside and rename it Jungle_camo_apache.rar, You can count on him.

No offence, but the picture is too blurry and there have been tons of camo textures out since Renegade's release. I think there still are some on cncammo..

Here's the link for your downloads:

Snow Camo

Jungle Camo

Desert Camo

I think grey nod vehicles is one of yours...

Grey Nod Vehicles

If you do go to the site, ignore the fact that the thumbnails are missing, I need to sort it out with my site later... I switched templates so my site decided to fight back or something...
