HI,
i have a problem withe gamespy.
i creade a GameSpy and can't join it! ??
my friends can join my server but i can't join
what i have do wrong
PLS HELP

P.S.: soory for my english but i am German

If your running XP, then log just use the "Switch User" feature and use it that way, i think that
works

That would be the best way if you want the Server up most of the day.

If you are just using it for the occational use, you can start up Renegade and then launch the FDS.

Although it may make your server lag...
