hi,
My stupid brother did something to our pc and now we are banned.
The ban is from a very very long time ago, cause he uninstalled renguard and blocked somehow the site and download thing.
He is gonna play on a other pc with a friend's serial.
So my question is, can you just let me play with renguard somehow ?, cause i can't play with renguard, and sometimes i play in clanwars and i need renguard but then i can't play.

I think i need Mac or someone, but i don't know who the leader here is ?

greetings

It was actually his uncle's half brother's half sister's niece's boyfriend's grandma's girlfriend's great great grandson.

Speaking of bans, my sister was on my computer, and accidentally downloaded a virus which put loads of hacks and cheats into my data folder and then it tried to bypass RenGuard, and when I went on there next I was banned from it and all the servers on WOL and I got banned on WOL too and from microsoft.com because I also had microsoft hacks installed by that virus.

Can you unbann me please?!?!

thx in advance

How does that work? He isn't having anything taken away from him by being banned from Renguard. He just isn't getting this free service anymore. That isn't something you can complain about.

Here's an idea to fund the running of renguard servers.

Make people pay to get unbanned, if they cheat again they'll just get banned again.
