"[BR] Renegade Sniper World 02" hosted by me, sniping only with sniper maps, and BR .NET it is very stable, it is running 6 players no lag, it is ladderred and u can PM me to become a moderator. There is also a "Renegade Sniper World 01" hosted by TrueADM. If im not mistaken it is ladderred and is 8 players, he uses renegade itself to host the dedicated server so the SFPS is through the roof!

I have already said sorry about this mate. I had an admin who wanted to play so he kicked you. Like I said I'll get them to ask you to leave first.

Again sorry mate.
