Here is a new video. (ftp://195.13.63.185/figh7club/cnc-inside/deezer/Reborn/promo1.rar)

It's a windows media video, just download the archive and extract with winrar. Then play it with Windows Media Player.

Will it force me to reformat my harddrive after viewing like everything else Reborn puts up for download?

Only if you play it improperly. Not bad, Renardin.

I think so. Even by coming here... The risk that this thread might blows up your computer is at 98%... lol

Well, if you are really stupid with computer, believe me if your comp is fucked, it will be only because of your stupidity.

(just wondering how a fucking video tested with norton can do what you say... lol...

Conservilititlirtlriteltiertleti fucker.)

Some nice animations there. Although they might not be useful much, its nice to know of the quality of the animations we can expect to see in the versions of Reborn to come.

They didn't make those, they come stock with Renegade and most aren't used at all. This was just a new way of showing off their crappy infantry and a ripped off menu from TS.

Looked great, those infantry looked top notch and I'm getting more and more excited.

I have to say I laughed so hard when the one guy was doing pushups.

The menu seemed a bit bright/bland, otherwise visually it looked very functional.

You think a urinal full of human shit is top notch. I certainly don't trust your judgement on whether or not something is good.

I think it looks good and I actually like the idea of using the same or very similar menu as tiberium sun did. Isn't that what the mod is based on? Its nice to see a group of the things you guys have made all in one video; looks good.

I know, I realized that after I posted again I was just doing what he wanted.

I will say it again, great work Reborn team! Those infantry really have the right feel.
