Wow, you guys are just coming up with all kinds of new stories. You were caught red handed trying to use CyberPrick's RenGuard bypass hack. WE FIXED THE EXPLOIT MONTHS AGO and yet you n00bs still try to use it, then you make up pathetic stories to try and get unbanned.

sorry for the bad spelling, i was eating tacos for dinner when i typed my first post.

now whats this cyberprick? for the record i have no idea what you are talking about, i have been anti-cheat forever so i would not want to bypass rg. let me tell you my life story. renegade was not the first c&c game i play. i used to play and still do play ra2. i am famous for my ra2 maps and the anger i like to take out on people when they cheat or use france. i have never cheated in anygame ever and never tried to. i just started playing renegade several months ago. im a really big noob.(but im not bad enough to even think about cheating) actually i have gotten pretty good

and hope to get better. anyway like i said before i went out for lunch yesterday left my PC on when i got back it was frozen up and the app.. for renegade and renguard were closed i went to start the game up again and i constantly got disconnected until i got that ban message the 1000th time i tried to connect. i am not lying to you. please take into consideration that i am trustworthy and everbody i know knows this. and i dont have a damn clue about this cyberprik or whatever, all i do know it would be nice for me to get back on.

and i will also like to say before you give me another answer i will not like and acuse me. i am not the cheating type and have never cheated before, im am more of the guy who reports the cheaters. like yesterday before i could not connect to rg.

Wow, you rat out your fellow cheating buddies? Now thats a bit low, dont you think?

You tried bypassing RenGuard and you got owned! Deal with it! ^_^
