This is something that has been annoying me for a long while. I mean, it is one of those pet peaves...

I cant get a capitol letter at the beginning of my name. And yes, I have used Capslock AND Shift during registration.

Persay, I'll put...

Ashel.

It registers, and automatically makes my name ashel. No capitol. It really pisses me off.

It did it to me again today.

I tried registering as Lataya. It gave me lataya. I used shift that time instead of capslock, and I also registered outside of the game, using the start menu register option.

WTF CANT I GET A CAPITOL IN MY NAMES?!

Peace

Either edit it in the registry or delete the account from the WOL login screen and re-type it in the way you want it.
