I'm Kanezor, aka tA-Kane.

I ripped 'Kane' off of the leader of the bad guys on my favorite game, Command & Conquer. 'tA' is short for an old school name, theAnnoyer. Thus, tA-Kane.

I have lots of names, but that's my most... ermmm..., public... one.

Well before I joined WN all my nicknames just had 'Andy' in them, but when I joined the name WNxAndy was already taken, so I picked the nickname CABAL, as it is my favourite character throughout the CnC Series.

What is CABAL? CABAL is the artificial intelligence entity that played a critical role in Kane's plans during the second Tiberium War. CABAL is pure evil: terrifying, ruthless, and sadistic with a menacing voice to match.

for a handful of mine...

"Spoony"... Started off as "Spoonlove" which was derived from an EP my old band produced, named "Spoonchild".... then it became "SpoonyRat" and was curtailed from there

"MaidenTy1"... just say it out loud and you'll work it out

"SiXML"... when I created this name I loved using MRLS in tank fights, there's a term at CW.cc called "to 6.M.L. someone" meaning six missile lock which basically wrecks a tank, so....

"SH0WBIZ"... song by Muse

Came from Red Dwarf. It was the cat word used in the scrabble game (at least that's what I thought it was from, I was totally off..) Now it's a seemingly random use of letters.

Dodongo = Dudes from Zelda

I was Dodongoman but it sounded bad. I changed it to all O's. Dodongomon. And I did this before the pokemon and digimons became popular and now I get a million. IZ UR NAEM POKIMONZI!?

Now I use a different nick though; Doitle. Doitle is the name of Vicki's dog on Fairly Odd Parents. I love that show. When I heard that name it was the best name ever, and I took it.

Tooncy - Shortening of Toonces, a cat that I own based off another cat from an SNL skit.

Ic3cap78 - Ice Cap Zone in Sonic 3. It was really a forbidden fruit for me, because it took me forever to beat Carnival Night. Yeah laugh your ass off.

BagelBoy - Random. Used to play Tribes: AA under this.

2D-Beer - Generated by GS's name thing when I needed an AIM screen name. I couldn't use it because it started with a number, but its still awesome.

xTooncyx - I use this when Tooncy is taken at websites.
