Im thinking of starting a clan.(obviously) The name is gonna be Clan Jade Falcon.(CJF)[NAME] WestWood Online, mostly, if possible. Im hoping to have it mainly focus on Sniping, Quick Attacks, and Base Defence. We will NEVER have a Clan War with [GDE]. One reason. [GDE]SlickBud has over 200 recs on atleast two servers EACH. If your interested, have questions, or just want to tell me how much of a jackass i am for stealing a clan from BattleTech, or how stupid the name sounds to you, by all means, go ahead and post. Just dont bring this thread to life, unless its DEADLY important. That, or you want to report a mis-doing from a member of my clan. I dont play much Renegade, so your gonna have to tell me when i need to get online. If i get more then six people to join, im gonna create a Yahoo! Group, so we can communicate better.

Not only is Slick a pretty damn good player, hes a friend of mine. Also, i would rather not piss off Slick, and Darth, because they work as a tag team, almost always winning. Eagle is a badass sniper, who actually doesnt camp in the very least. [GDE] is full of very good players, and, although it might happen, i dont really want to get into a clan war with them.

()Oh, and Eagle isnt a part of [GDE], hes just a damn good player, and another friend.()

Recs do mean somethin. Good players dont need to, but do so if they care to. Because, my clan has never made it in any game. No, actually, Renegade is growing slightly. So what if the clan pages dont work? I do play the game, and i do have fun. But i would like to have a group of

people(a clan) that i can tell who we need to stay away from, and who we need to kill every time its possible.

if you gonna clan, use gamespy. All the clans are there now. none are on wol. And also check www.clanwars.cc and register your renegade clan on the new manual report league.

The description of the types of players you want fits me pretty well. I'd be interested in a clan if you made it. If you think I'm good enough, I can re-download Gamespy.

Good enough? Look, man, i cant even defend my APC 90% of the time when im in a Medium. [NOTE! I NORMALLY AM BEING HIT BY TWO STEALTH TANKS AND AN ARTY!] \*Goes back to see what he described.\* Ohh... Yeah, we aint gonna be much on attacking, but we will have some Snipers really tryin to mess em up! I got a few cheap shots on people who had just

---

spawned in one game. You should have seen them, they were runnin around everywhere! Oh man, that was fun. Then i took out their only sniper, since we killed their Hand of Nod, and it pissed em off so much. We won quickly after that.

Having a small(er) gaming community has its advantages. Think of it this way: More people, more cheaters. Less people, it's easier to get everyone to stop (RenGuard).

On to the clan issue, it's just being made. Doesn't mean that this clan will be a flop.

Righhhhhhhhhht way to show confidence. Renegade growing? What gamea are you playing? I dont buy games anymore. I have very low amounts of spare money. And, Mephisto,(Excuse me if i call you "Meph," or "Mephistopholes," i play to much Diablo II, and Dungeons and Dragons.) this clan has span through a good two, three games now. Im trying to start it in Halo: PC, i once had it in StarCraft/Broodwar, and, albeit with only me in it STILL, Warcraft III/Frozen Throne. But, yeah, your right. No reason it should flop in Renegade, is there?

Guess im just to much of a Nerd sometimes. Anyway, yeah you can join. Ill have to create a new name on GameSpy, but yeah, you can join. Im not sure if this is in the first post or not, but the abbreviation is CJF. You can put it at the end, beginning, or in the middle of your name, but it has to be separated from it with "]"[" or else it might look odd.
