Hi there,

I currently run a forum http://www.ohnouserv.com
and 1 ssaow server,its a 10 player "lag free" server and heavily moded to ensure game quality.
Its hosted on the web and runs half renguard.
Btw, come visit us, title to search for on westwood is:
[BR] OHNOUSERV.COM AOW+CRATES ,in the 10 player list
My name in the game is quebud.

This serv runs 24/7 and player quality is pretty high in general,we get noobs sometimes, but they all seem to leave quickly for some strange reason.

I have a dedicated team of people with me and I would like to expand the "family" with a new ctf serv, I'm thinking 8-12 players with a dedicated serv running 24/7 with half renguard (like my ssaow)

I have an extra cpu with twin processors hosted on cable and running win xp pro and all the fluffs that i could use as a dedicated serv for ctf,all i need is a FDS key....

Can anybody help me??? plz???

That is all that is keeping my new serv from goin online, please help me with this key problem.

If you can help me,please get in touch with me by email or come on my forum,I am known there as "The boss",you can send me a PM there.(forum addy is http://www.ohnouserv.com)

My email is quebud@hotmail.com

I really hope somebody can help me out and provide me with a key or 2.
(ya,even more projects in store for the future,but 1 step at a time...hehe)

Keep in mind that i wont pay money for this,so if your thought was that...dont even bother.

I'm looking for somebody honest who can see all the effort i'm putting into this and wants to encourage quality gaming on westwood.
We all had enough of those shitty servs controled by cheaters and hackers!

Quality I shall provide nothing less.

Get back to me,if you can help

RR
