I'm about to purchase a server, do I need to get a serial or will it come with one?

you need to get one but EA has stopped that service :/. I wouldn't get your money into it unless you run a big clan anyway: there are already too much server for the amount of players. It will just be empty ...

use your current renegade cd-key, it supports 2 logins at the same time. or just pop one off ebay for like \$10AUD (like \$7USD)...

cos if your gonna buy a whole server, a extra \$10 won't hurt

you didn't get the point. He needs a free dedicated server serial but those are become more or less rare as the bot that gave it is taken down by EA... Noone wants to give his away.

Send a PM to Adad and he'll give you an FDS serial.
