Ive been playing renegade for a while, and I used to know how to change my login name to capitals. Suddenly upon returning to renegade I have tried to, yet it does not work. Can someone please help me here. Thanks.

Start ~ Run ~ Type in "RegEdit"

Search for your WOL name. Then when it shows up, double click the registry value and capitalize it.

K i did exactly what you said.. Run - RegEdit - Local System - Software - Westwood - Renegade - WOL settings - Logins - ap4che - AP4CHE.. then i logged into renegade and it is still ap4che.. in the lower case letters.

Or: Go to the login screen, and click on the name you want caps. Hit DELETE (the will only delete it from your PC, not WOL) Then re-enter it with the Capital letters you want. Login, and you're all set!

1. Go into the "My Information" screen located on the side toolbar.
 2. Select the name you want to capitalize.
 3. Delete it.
 4. Make sure no other names are set to auto-login, then log onto WOL. When prompted to enter a name, enter the name you just deleted only with the desired capitals.
 5. Login and look at the top right hand corner, you should see your now corrected name.
