i always get version mismatch now in this 1 server..... on the others i dont..

how do i fix this?

i tried restarting server
reinstallin my game

wut i do?

On only 1 server? Why don't you play on others then? Whenever I have server mismatch, I'll just reconnect to WOL.

Try reinstalling renegade, then installing the patch, then renguard, then CP1.

Actually, that's a point, don't install CP1, Oblivion doesn't like it.
