Hi,

Ladies and gentlemen, today in the Jellygame server I was watching someone up close and very carefully! This persons online name is unknowho aka clearsh0t, an official mod of the jelly server! as I was watching him today, he was getting 20 to 30 points shooting an apc with a 500(level 1) sniper, and I checked if he was running RG, and yes he was running Renguard!

About a few days ago when I was owning people, alot of them starting to complain and talking trash about me(half3lif3), "he is cheating, eventhough he has Renguard"...

and 20 minutes ago, when I was talking to unknowho, he told me that the only reason why hes cheating is because that I(half3lif3) was cheating, zeeded which is another palyer that I think cheats! now I told him that I dont cheat, and he does not believe me, well Ladies and Gents, believe it or not, I do not cheat, you can bring the most sofisticated anti-cheat system, and I still will be the same!

this message is mostly pointed towards Crimson, and the hard working Renguard groups!!

and my request is can you guys please do something about this! please!

Regards

HALF3LIF3

Zeeld is in my clan and he owns you. We've also had him tested for bighead, he passed, and therefore, owns.

You don't need big heads to cheat by killing...

Bighead cheaters are rather important, I agree

No other cheats matter apparently.

You can't leave the damage hacks out...or could it be an aimbot we are dealing with?

But zeeld is one who plays the game to frag as many people as possible and at every opportunity. I've seen him score over 170 kills in one game. He exploits the killing system by turning C&C games into deathmatches.

I know what it is, and it's not a bypass, it's more of a glitch. I'll fix it tonight on the servers.

First off get your facts right, it isnt clearsh0t who uses that login. I know who it is and there time on my servers is pretty much numbered as of me reading this thread.

Incuse you were confused dancer is Jellybe4n btw. We have spoken about the issue and I have to say that I think this person is going to find that he is banned from more than just Jelly. As a matter of fact I think abusing mod status and RG in this matter calls for a while without it. Will have to look into that ...

Can you explain what he does without saying how to do it?
