The folks behind this website designed it as a promotional gimmick for their super glue. They've focused a web cam on a computer monitor that's been glued to a wall for the past 52 days. The site allows you to type in a message and see it appear on the monitor in real time!

I hold no responceability for this topic turning into a furry-bashing topic. At your leisure to inform the masses, Lijitsu. \*shrugs\*

Furry: A man-like creature that usually has beastly features. EX: Cat-Girl. Cat-Boy. Leopard Person.  
Edit: Typo.
