lol, please dont tell me ur trying to copy - paste the tga file (png if u got cp1) from renegade data folder to paint?

to take an ss in ren.

step 1) press print screen in ren

step 2) open paint

step 3) right click and paste.

<http://www.irfanview.com/>

just go here. It's an awesome FREE program that you can use to view and save the screenshots.

What is happening is that Paint can not read the file type (.tga, though i don't know about .png.)

Just google Hoversnap or Fraps. Both of those are free, and Fraps comes with an FPS counter and you can take 30 second movies.
