If you don't know what a "no cd" is, you're probably not going to be able to fix his problem.

Well, I will explain. The renegade startup game file is made so you cannot go in without a cd, so you can download the file but changed so it allows you to go in without a cd.

Download one that is compatible with RenGuard. There are many that are not!

RenGuard is seperate from CP1.

if you have it installed in your renegade installation , it is still there.
