I'd like to see C{I}A's career record in KW matches against top 10 clans. If you want MY suggestion, InF- is a very good clan for players who are both very skilled and very good sports. 100,000 KW career clan points and 4 Gold KW Cups back them up.

And what, may i ask, are you basing this on? What Clan Wars site? We use Team Warfare. Everyone thats always played against us has either cheated, or not showed up.

I'd try and join a Halo clan. . .if I didn't suck so badly at it. It's not even really a matter of me sucking, actually. It's the fact that in contrast, I suck. Once or twice on some random Heavy Weapons server, I got 1st Place due to the fact I killed, like. . .everyone. . .with Spanker Rocket Launchers.(Ie, the point of "Heavy Weapons".) But then again, that was the only weapon available. And the only reason I got 1st place was because neither team was able to score in that match.(It was a Capture match.) But I'm babbling on.

I am so not a Sniper. At least not in Halo. Though I do have to admit, I haven't actually tried in Halo. Just Renegade and Counter-Strike. And I think Return to Castle Wolfenstein once in a great while. I guess I should check. With my current machine, though, the fuzz on the sniper scope might drag my FPS way down. . .

our servers are down. Getting a new server so the site might be down another week or two. While Im the only person in GDE usually in these forums, talk to [GDE]AngryC4Killer. Add him to playerspy and he'll give you honest feedback. If your good, he'll tell you you are, but if your terrible, you'll know that too.

The UN clan is currently recruiting, but they are more of a "be our bud type of clan". Not one that is about clanwars particularly.

Well. . . Since you got my curiosity up yesterday, I hopped into the closest server I could find. Blood Gulch is currently my best sniping map, while Battle Creek appears to be my best flag-running map. . . Here's the outcome for Blood Gulch on a Snipers Only, No Shields server whose name escapes me:

Not too bad for the third game of my first try. . . Unless you look at the kills the three guys above me were able to rack up.(Keeping in mind that Juggernaut joined half-way through the thirty-minute session) Then yes, I suck. I suck long and hard.

Not to bad, you dont. Ill tell you what. Go to my clan's server, the Clan C{I}A server, and play through a few maps. I promise that youll find a Sniper/No Shields Team Slayer match eventually. Go and get Xfire(www.Xfire.com) and install it, since you need it to join the clan. Dont worry, it isnt some virus thing, its just an ingame Instant Messenger that also tracks gaming hours. Before you can use it in a game, though, you must search for installed software in the Tools toolbar thing. It isnt to big of a program, i think around 30 MB for the installer. Not only is the installer that small, but since its an ingame Instant Messenger, it wont lag it very bad. It will lag when you get a message when playing a game.

Alright, now after youve gone and done that, head over to www.ciaclan.com and check out the rules. Then go to the Forums and post that you want to tryout in the forum with the same name. If you want, you can tell them i recommended you.(Purple{T}Magpie)

Also, my Xfire is lijitsu.

Or do you just not pay attention to them? In this case, you may want to. :x

Being a good clan does not mean you play clan games. its all in what your looking for, if u want to
be in a clan just to duel other clans than yes i guess a good clan is a clan that participates in a lot
of clan games, but i would check out the membes and sportsmanship of membes, admins and

how they treat non clan members on their servers *cough*xil*cough*

Yes, it does. If it doesn't play clan games, it isn't a clan.

On servers? What does that have to do with clans? Oh yeah, absolutely nothing at all?

Okay, I've got a "clan suggestion" for you.

Avoid Sniper clans like the plague.

Why? Here's an example:

I met some dude in some Marathon server once. His name was. . .uh. . ."forkguy12" I think. I don't know if he was in a clan, but I know he was a Sniper for 90% of the game.

Now, at the time this happened, he was playing the game as Raveshaw.(Normal "costume".) I was wandering around on Field, then suddenly. . . Bam. Headshot with a laser. "forkguy12 killed StLithius". Now, I happened to catch what hit me in the "deathcam view," so to speak.(The camera rotated in just the right direction.) I was sort of half-high(on lack of sleep, I guess), so I jokingly stated, "Whoa! Pee-Wee just owned my ass! Heh."

Now. . . Your average, intelligent player would make the connection between my statement and the character they're using. There are even some people who could get the connection even if they've never played the Campaign Missions. But did forkguy12? Noooooooooooooope.

Instead of trying to be understanding, he gets all indignant and starts accusing me of "starting shit with him." I try to calmly explain that I was just trying to be funny by referring to his character the same way Havoc himself does in the Campaign missions. This dipstick still continued to piss and moan for a good three minutes after that, in addition to his inconcieveable blathering about how "everyone's such an ass on this server" and whatnot which was a good two-minute rant before I tried to explain myself.

Another example: I met a Sniper on one of the Capture the Flag servers when it was empty. He got furious and called me a "n00b" because I killed his Deadeye unit with my Chemical Warrior. When I asked why he explained that "it doesn't take skill to kill someone with the Chem Spray weapon" and that I was somehow "blocking his view with the chemicals". Well. . .any intelligent

sniper would just open fire at the origin of the chemicals. . . Obviously, he was not one of those.

Well, in short, a good chunk of the snipers I've met in the past are all assholes who think they're God's gift to Renegade just because they can run-and-gun and get headshots while doing so. Big freaking deal. I know a few people who can do that with a freaking Pistol, or even an Auto-Rifle. Same basic idea, but of course, Sniper rounds are instant-death while most other weapons are, in fact, not.

Anyway. . .I'm done. This seemed like as good a place as any to vent, so. . .yeah.

Joseph Collins wrote on Sun, 18 September 2005 05:55: Avoid Sniper clans like the plague. Way ahead of you... they don't even know the rules to sniper games, then they kick you for doing stuff which is perfectly legitimate.

A sniper clan +RST+ posted a faked conversation where I supposedly admitted killing the clanwars.cc ladder because "they were about to win it". Unimportant to them was -a- they were a clear 1500 behind my clan at the time, and -b- the only reason they were in 2nd was two other clans were penalised.
