I need a FDS serial so I can set up my WFDS to do WOL related testing, anyone got one I can use?

EDIT: This serial has to be one I can have to keep so I can use it for all WFDS dev work now and into the future.

Also, anyone know how to add the serial to an existing WFDS install?

Give up, you aren't going to get your pm access back.

Jonny. Verify the status of any numbers you recieved, please. I'm sure I'm not the only one who'd like to know if you're keeping whatever you got. =P

jonwil wrote on Sat, 27 August 2005 04:39 Thanks joseph, I got what I need now.

Keep it, yo. I never would'a used it, and I wouldn't've felt right keeping it and/or selling it, seeing as it didn't cost me a dime.
