hi everyone.

First off all, id like to compliment the developers of renguard. Renegade is more fun without cheaters. However, since a few days im banned for some reason. i suspect my son has been messing around, cause i had to reinstall renegade.

i really would like to get unbanned, i love to play renegade and i can assure u i don't cheat or hack or nothing. i think my statistics will show that, and im sure that a lot of other renegade players will confirm this.

thats why i would kindly ask u to plz remove the ban?

ty in advance

What's the ban message? What do you think your son did to make you/him banned?

You're sure it wasn't your grandson??? Ot your grandson's dog? Or the dog's son?

You get where i'm going?

Though you are asking nicely, so I won't say naughty words...

Edit:

Mac

We only ban when someone tries to bypass RenGuard.

Check your ban message:

Message from RenGuard: You have been banned by Crimson on 21.08.2005 05:53:12 for username: Trying to bypass RenGuard. Goodbye

That means you got banned for trying to exploit RenGuard with the name of username by using one of 2 blacklisted "game2modded.exe" files, that try to exploit a RenGuard bug that has been fixed months ago. This detection method is 100% legit and it has no false positives.

Message from RenGuard: You have been banned by Crimson on 21.08.2005 05:53:12 for username: Using blacklisted executable. Goodbye

This means you have been using one of 2 available "RenGuard cracks", that try to bypass RenGuard by modifying itself (the game.exe) file. We have fixed these exploits, but they are not 100% fool proof, until I have time to implement a new detection method that produces no false positives.

Message from RenGuard: You have been banned by Crimson on 21.08.2005 05:53:12 for username: Please talk to Blackhand Studios to have your ban removed. Goodby

This message means that we have banned you so we can talk to you, because we have either a question to ask you (possible cheat accusation) or we may want to help you on a issue you have with RenGuard we detected. Join our Support Chat on www.renguard.com to get your ban removed

How to get unbanned when banned for bypassing RenGuard

If you try to bypass RenGuard to cheat on RenGuard protected servers, thus destroying the game for others, we think it is fair to ban you. A few months ago, we had the policy to leave these bans in the system indefinitely.

We decided now to take donations from (former) Cheaters to get them unbanned. Think of it as a "service charge" to remove your name from the banlist, and a donation to Blackhand Studios. RenGuard costs alot of money every month just to keep it up, and we pay this out of our own pockets, just to protect it from evil cheaters like YOU.

You will need to donate \$30 to get unbanned. There are no exceptions. Stop trying to say it was your brother/cat/dog/neighbor. You are responsible for what happens with your serial number and with your renegade installation.

hi Mac.
thx for the quick respons.
nope, im sure it was my son,although he don't admits, but i agree its my responsibility.
the messages says: "please talk to blackHandStudios to have u unbanned."
can u plz help me get unbanned?
greetings, gsxR

If your WOL name is gsxr600k5 then I know why you got banned. Is that your WOL nickname?

This particular ban was placed because of an incident on xphaze servers where the player was on RenGuard, yet was allegedly able to turbo repair.

aha! i know what u mean on the xphaze server!

let me explain. i was running RG, i was a engineer on gdi. it was field i think, and i was disarming mines in tunnel. at the same time i was disarming, someone on nod was overmining,so a lot of mines disappeared and thats why it seemed i had some repaircheat. i was kicked then before i could tell the man they were overmining. i tried to join again to explain, but couldn't get in, nor could i on other xphaze servers.

at the time, i laughed cause they were overmining and the mines disappeared but next i got kicked and then banned from RG.

i hope u can remove the ban after reading this.

greetings, GSX.

I dunno. Maybe I'm going soft. . .in the head. . .but I believe this guy's story. It's likely as all get-out that something like this could actually happen. I'm not saying he isn't lying, but he might not be. As I said, his story sounds logical to me.

I believe him as well, as it was not a server recorded error, and no test was performed. He has renguard, and yet was banned by a mod. That alone should get him unbanned, but I am SURE that the owners of the xPhase server will not let him join because they claim he was cheating, and will not back down (it's not a bad server at all mind you, just that they went through all this trouble,

hard to see them let them back in.)

Good luck to ya buddy, sometimes times suck, of course you could be cheating, but then you would burn in hell, and we don't want that, do we??

hi.

thx for ur respons and ur confidence, and yes it happens sometimes when ur disarming mines and at the same time proxis disappear cause of overmining. just too bad the mod on the xphaze server didnt think a little further and kicked me right away.

hi meeee!

ty too for ur confidence and id like too say again, i was running RG on that game in xphaze server. i hope ill get the ban removed, though it would be sorry if i couldn't join a xphazeserver again, cause i think its a good server and i like playing on them. maybe a mod from that server reads this and will allow me to rejoin?

keep my fingers crossed, greetings, GSX

Hello

I am a co-owner over at Xphaze and I will try and get the admin who banned you from the Xphaze servers and who saw you doing this. I have no information/proof on anything besides my admins word sorry.

hi andysh.

thx in advance for trying. he will say he saw proxis disappear very quick after eachother when i

was disarming one of them. but that was because of the overmining job on nod like i said before.
it would be great to allow me again, but that still doesnt remove my ban on RG. and the ban on
RG is a direct result of the ban/kick on the xphaze server.....
anyways, still keeping my fingers crossed.

What sort of policy do you work on, again, Crim? The "Three Strikes" policy? "Two Strikes"? I
honestly want to know. Just for my own curiosity. :x

There is a "double damage" glitch for renegade, I've mentioned it a couple of times in the past,
talking about the "hotwired med vs three artys" is probably doubleheal combined with a crappy
NUR on the server (<3 30)

okidoki Crimson! thanks a lot for the removal! if mods on server would be more carefull with
kicking and banning, u wouldn't have heard my name at all! thx again for any trouble u went
through to remove the ban.
hope to see u in WOL games,
may the R be with u.

Mostly I think people on that server and others want to prove to me somehow that RenGuard sucks because people get past it. All I can do is investigate the situation.
