I was wondering if anyone has any rare images of the old E3 Renegade Sniper Rifle model. The one that Logan used.

I'm working on a small tutorial projects and only found 2 or 3 images, nothing showing too much detail. Any videos or pictures would be a ton of help!

Do you mean that one that you saw in old Trailers?

Oh that one, I will search it for you. I have seen much images with that sniper rifle on it. By the way, it's also in the Trailer that comes with YR. (You can see it in-game where you also can see the movies from missions.)

EDIT: Here's a movie featuring the old Sniper Rifle.
