Hello,
My name is trooprm02 and I am the co-founder of the +TRP+ Clan.
For a long time now I have been looking for a WOL FDS Serial.
I have recenlty arranged with a friend of mine in miami, to organize a 75(maybe even 127!)Player RG Server, that will run 24/7 and be moderated by members of the clan.Now, we are also looking to add a Sniping Server(25 player) If we are able to get another serial.
If you know a working Serial IM BEGGING YOU, to notify me.
If I DO manage to obtain the serial, are are all welcome to join. The servers will also run BR and will have a bot mod at irc 24/7(language filter,idlers etc...)
If you provide me with a working serial, I would be hournered to make you a moderator on the server, or in exchange for my serveces!(im a proffesional webpage designer/programmer)

Thanks, and wish me luck

I think the FDS crashes after 60 players. Don't know for sure though.
