That has got to be one of the most half-assed things I have ever seen. You fail. You fail at the Internet. You fail at virtual existence! Begone!

nopic, if you're going to do everyone a "favor" by doing this, at least make it right. FFS, use like 24pt Tahoma white, and remove the horrible music.

What the fuck is this? I'm sorry, but no. This is fucking SHIT. Shit, shitty-shit.

First, it looks gayer than taslayer himself.

Second, it plays shit music for no reason at all. What's next, popups?

Third, who the fuck trusts this douche with a form where you enter your passwords?

Nopic for onece is telling the truth. I have checked "most" of the pages and all of the form actions do link to westwood, so dont worry.

Holy crapola.

I haven't seen a site look so shitty but still work halfway decently in years.

+ points for effort, - points for graphics.

Also, get rid of the music. Totally. Autonomous sounds and music do *NOT* belong on the web.

If anyone other than the author of the site hosts it, I think it should be BHS. They're probably the
most trustworthy second only to EA themselves.

But please do clean up the pictures. Those are horrible.

And if you're going to add "created by" comments and etc, you'll probably want to add "Command
& Conquer (c) EA Games, all rights reserved, etc etc etc, legal bullshit, blah blah, all other
copyrights are owned by their respective arses owners and etc"

I said in the OTHER topic about this:Never. Ever. Use. That. Music. For. A. Renegade. Site. Especially one so shitty. For gods sake, Ozzy would be better for the site, and Ozzy is way off from Renegade. And if you dont know who Ozzy is, then die. And if your screen name is nopic01| then you need to burn to death eternally, and quit your horrible, horrible site making.
