hi, it's my first time doing a topic (i don't know if it's the good place to ask either...) and actually it's for some help.

im looking for screenshot or hand made paint files, where u can see the whole maps clearly(view from the sky).

(im looking for the default map as : field, volcano...)

if anyone could help me , thx.

I don't think there are many. If there are maps like this you wouldn't be able to see a lot of places on maps because of rock covered areas.(Such as the bases on under)

Maybe someone has removed these coverings for a ss or soomething I dont know.
