Clanwars.ccEA has sent various collector's items to CLAN WARS, and we are using some of these items as prizes for the winners of this tournament.

How about you read right?

It's not that big of a deal... Apoc offered these prizes to every CnC-based community, so don't be dazzled by their "omg we got prizes from EA" claims.

Is there anything remotely negative about this tournament? If not, keep it that way.

BTW about the "claims", the loot we're giving away for this tournament is about 15% of what EA sent us

Since the clanwars.cc league was revamped four months ago, there has never been an instance of cheating. Compare that to public servers.

I dont lie. Often. And not about this. I didnt look at this topic's title for the words, and i only saw the first few when i looked at it for the first time, so i didnt know that theyre were the words "From EA" in the name of this topic, until Nightma provided an image.

There are two slots left.

Ironically, this is also the start of page Two of a Two vs Two tournament.

Two on Two on Two! Dun dun dun! ...I know, the sound effects are generally implied, but i love doing them.

More ironically, there are two slots in the two vs two match, that has a two page topic.
