First, for some reason ive been banned for have a blacklisted game2exe. Why is my game2exe blacklisted?

Second, the ban is very stange, somtimes ill get the "you've been banned by crimsonsleepin for have a blacklisted game2exe" and other times ill get the regular "welcome to rengard" message and be able to log in?

Can i get an explanation please?

It's because you tried Cyberpunk's RenGuard Bypass. And failed like the idiot you are.

Donate \$30 to BHS.

Like I said before I havent tried to bypass renguard or used a download that would let me bypass it, never cheated either I dont know who this xslim420x person is. Then again I dont know how I can prove this, so I doubt anyone will listen.

EDIT: And what about renguard still letting me play sometimes as I said in my first post?

Seriously, you people need to start reading the thread before you flame, or even better dont flame. The only thing I've downloaded for renegade is renguard.

To restate everything: I dont cheat or tried to bypass renguard. Or downloaded anything that would let me do that. Sometime renguard will let me in like normal, but the rest of the time is will say im banned for using blacklisted game2exe. The other thing is that it says the message is for xslim420x and i have no idea who xslim420x is.

Read the sticky in this forum. This message could give false positives. Maybe this is one of them?

Please do PM Mac or Crimson and ask them the question cause i'm afraid this topic will not bring you much releave .

Blacklisted game2.exe does not give false positives. The banreason for it is usually "attempting to bypass renguard" which means blacklisted game2

heromatt Message from RenGuard: You have been banned by CrimsonSleepin on 20.09.2005

07:03:05 for xslim420x: using blacklisted game2.exe

mac

Message from RenGuard: You have been banned by Crimson on 21.08.2005 05:53:12 for username: Using blacklisted executable. Goodbye

This means you have been using one of 2 available "RenGuard cracks", that try to bypass RenGuard by modifying itself (the game.exe) file. We have fixed these exploits, but they are not 100% fool proof, until I have time to implement a new detection method that produces no false positives.

I wonder if perhaps it's an IP ban, and you are sometimes using the same IP as that person?

Not sure if RG bans by IP though, I always thought it uses CD Key hash...

IP Bans should be on a temp basis of 72 hours. Most isp's recycle them in a 72 hour period, some recycle at 96 dending on how they that particular rback. Why couldnt the admins just run a script that would auto unban after that time period or would this make too much sense?

Here's the thing. Despite all that you've said, hero, no one believes you. Convincing as your case might be(har har har), in all likelihood, you screwed up. But...let's go over a short list of what may or did happen. Shall we?:

Someone's using your CD-Key and that someone decided to use a RenGuard bypass.(Likelihood(0% to 100%): 20%)

"xslim420x" is on the e-mail you used to register "heromatt7" and you, or someone else, used that name with a RenGuard bypass.(Likelihood: 16%)

Someone found your registered primary Westwood Online account password and made "xslim420x" on said account, using it with a RenGuard bypass executable.(Likelihood: 17%)

You're lying and popped something into your Renegade Data folder that tried to mangle your game2.exe to bypass RenGuard on accident/purpose.(Likelihood: 57%)

You're lying about everything and simply cannot face up to your stupidity and pay the toll like a good little boy.(Likelihood: 79%)'course... This is just my opinion, mind you. Just that I've noticed a lot of people claim this-and-that when they just simply don't want to pay thirty bucks to play on RenGuard again. Why it matters, I don't know. You could always just play without RenGuard... But then again, you get a lot of goofy pop-ups and accusations when you do, on some servers. :x

Can you say "Monopoly"?! :D
