Okay...
I hope you come to the rescue Nightma XD...
My !Own and !Kill command wont work...
Also my !help command wont do anything... (I only see what it says in NR.)
So if anyone could help me, HELP!!!

in your NR Directory

there should be a debug.txt?

And before that it says team 1 2 3
then something like something is not a sound or something like that...

does the program have permissions to create text files? It could be something to do with running on a limited user account on winxp...

is NR could not write to txt files, then it would crash when u hit FDS Connect, lol

do you run an All Out War server?

sounds to me like u have BHS.dll, but your scripts.dll is not loading it

www.aohost.co.uk/ssaow.zip << install that

then try!

Thx for the help...
I'll try that!
