It is your responsibility to ensure your brother doesn't do things he shouldn't do, Not BHS's.  
Thank him, he got you banned from renguard, and I doubt BHS will unban you.

MacStop trying to say it was your brother/cat/dog/neighbor. You are responsible for what happens  
with your serial number and with your renegade installation.

I have my own computer, if I saw my brother on it he would be dead...  
But he has a way better computer so he has no reason to.  
Plus he quit renegade 2 and a half years ago

I already cleaned this topic up once, don't make me do it again.

We get it, it's a common excuse, and no one can prove it either way. Any other useless garbage is  
going straight to the Silo.

This guy was caught trying to use Cyberpunk's RG bypass about 6-7 times before mac saw it and  
banned him. Since then, he's tried changing IPs and serials with no luck.
