Who the fuck do you clear scope using band of spankmonkeys think you are????

sopadirt (whos 9) is deemed to have cheated ??? Unless he uploaded lots of cheats and skins whilst i went to the toilet or made a coffee then i no he don't cheat.(And how he get past the admin password is really amazing) FFS his faverite game is the hulk2 on his ps2

It's 1 thing HAVIng to run a half written security type program to play a game -----another thing altogether when you are accused of cheating by the programs writer.

1,Soapdirt plays renegade pure ----Only thing he got that he shouldn't is a No cd patch <----that was put on to stop the cd's from shattering in his drive (Happened 3 time's so far,granted the game is cheap/But new head readers and or drive's aint so cheap <---I no that because ima the guy who has to buy the replacement item. -----If however the no cd patch is deemed a "cheat" then it shall be removed

2,Only occasion i can alude to where he could be remotly considered cheating is,When i put c4 charges on him and we blow players up <---thats not cheating,and it does clear tunnels that are packed with clear scope using snipers <---which is cheating (renguard can't spot that tho,so im doomed to play games that are dominated by guys who can pin entire base's down with a sniper) Trouble is i play with my son <----he wants to drive the tanks and shoot stuff and its hard as fuck watching him as he bumbles about getting owned by a guy who got clear scope,So i decide to come up with a way to solve his problem (Just like any decent dad would)

3,Downside to being a dad ----I get kiked and banned from server's because of said tunnel clearing operation The german renegade community server really dont like it <---And that makes me happy,(Sux my ballz pathopia you coc munching bag of wank) Probley the most cheats on 1 server.

4,If asked whilst im in game about how they died -----i say ima stealth sniper with a rocket launcher, IMHO if you have to ask it means you new to the game and i aint rewarding ignorance,You learn the subtle touches that make the game just like i have .....i would however tutor for a small fee the subtle touches

5, SOAPDIRT <---that name been used for years on the internet,was my first name on the web,when you only had 56k modem and we all play TIBERIAN SUN, To have my name slurred by YOU is rich :: You are the reason the game is/isnt full of cheats

6,Ima admin on both computers and he cant run anything on any of the computers -----So i would change the sticky at the top of the page about renflawedguard and having to make a donation to get back on to your explitable security thing.

ps

It's ok you don't have to make a donation to me or even offer an apologie ---I'm sure your time would be better spent vetting the people who say "He's cheating" and believing em. How about you invite the person to a test server ???? instead of making em join this place and Bang on about how you royaly fucked up ----You explain to him why he can't play renegade because he's cheating ,,,,Because all he keeps saying his he didn't/doesn,t cheat.

how do you know that a sniper is using clear scope?

as for this, "im doomed to play games that are dominated by guys who can pin entire base's down with a sniper)"

Are you suggesting you aren't able to win maps because of snipers? No offense sir but you do not know how to play this game if that is the case. So when making a statement like this, "If asked whilst im in game about how they died -----i say ima stealth sniper with a rocket launcher, IMHO if you have to ask it means you new to the game and i aint rewarding ignorance" it holds no water since, well besides the fact that you go in and put c4 on Sbhs and waste what could easily be 2 people using tanks to take the field. Not to mention given what you state about you getting a

ah... and this folks, is where asking nicely comes in handy.

Heck, if it were up to me, you'd say banned (mistake or not) simply for the attitude displayed.

Although I must admit, some of what was stated is hilarious.

with the former being pure gold.

Asking nicely ?????

what you fuck up and ban my son --Then i gotta ask nicely to lift the ban ?????

how so ???

Remember he has been accused of cheating --found guilty ---then banned.

^^^and its somebody else called nans3000.

and i have to ask nicely.

\*\*Believe you me i tryed to keep a cap on the attitude ::if it was in real life and you would of come up to me and said "Your sons a cheat and is banned from playing football" well chance's are i

would break your jaw --- so a few fucks and clucks is me doing real well to keep the attitude down.

Here's a hint:

When dealing with customer service (basically that's what this is), no one says they have to accomodate you. They must solve the problem, yes. But they don't have to do it fast, and they don't have to give you what exactly what you are looking for. Infact, they don't HAVE to help you, they just do because it's good for business.

Give the Customer Service people anywhere attitude, and I'm sure they won't be so accomodating to your problem as someone who is nice.

And you wouldn't ever consider the possibility that he was cheating?

Have you asked your son whether he tried to bypass rg, or hasn't that occurred to you?

By the way, warranto, this definitely is not customer service. He didn't pay for Renguard.

A "company" doesn't have to sell products for there to be a customer service basis. All there had to be is someone using the product. Any assistance received by the "company" who made the product is "customer service".

customer service

Definition: assistance and other resources that a company provides to the people who buy or use its products or services

I was referring to this comment.

"They must solve the problem, yes"

which, to me, does not seem applicable if the product or service is provided free of charge.
