A game like it from the old Westwood employees, maybe, but not Renegade 2.

Renegade 2? No...

If anything close to to normal renegade will ever be made, it will probably renegade generals or something...

But let's hope not...

It's true though. Renegade was the death of Westwood, quite literally.

Directly, yes.

However, Westwood's quarterly report was less than desired (because the game didn't do as well as it should have), so EA cut their losses and closed them.

Yes, but consider that Renegade was an entry into the most popular genre of computer action games, that being the First Person Shooter genre. It did have a number of issues from the start (though WW patched away most of them), and was not as graphically advanced as its contemporaries. Despite being quite a fun little game, Renegade just didn't deliver to the masses. Its primary appeal was to fans of the C&C series, and it did not draw many followers from outside that limited (but obsessively loyal) group. Ask around and see how many Ren players there are who never played another C&C game before picking up Ren...I doubt you'd find many.

Now, Renegade DID open up and reveal the potential of a first/third person perspective game based off an RTS- now we have games like World of Warcraft (MMORPG) and Starcraft Ghost (F/TPS) out and/or in the making. So all was not lost- publishers and developers DID see the potential of this type of game, and they ARE attempting to exploit it, with some great successes. It's a simple equation- RTS players love to see the world they command from the level of a single combatant. It makes the experience more personal, and a hell of a lot cooler.

Unfortunately, Renegade never reached that point. EA didn't give Westwood a second chance with Renegade...they really should have; I believe that if an expansion had been released, or a sequel with improved graphics and physics (and plot!), the idea really would have caught on. But,

EA being a company that has really, really become really, really opposed to taking chances, they deep-sixed the whole operation instead, then went their own dumb way to milk out the franchise. Go figure.

Renegade 2 was cancelled a long time ago.  
But at least they did start it.

officially, renegade 2 died and won't raise again. but modders try:) for example, one man from CnC Source and his team are trying to make such total conversion.

It was between the RA and Tiberian universe I believe actually. It was going to show the rise of Nod or something to that effect.

Yes, thanks to EA, Renegade 2 will never come out.  
RIP Westwood.

Anyway, you can still find something called "Renegade 2: The Return to Jacob's Star" in this list <http://www.gamefaqs.com/features/company/1.html> (the year of release is unknown of course)

It's truly a shame R2 won't be coming out. I think it is R1 is a great game, and should have gotten more popular than it got.

RIP R1, RIP Westwood...
