Does it have any sort of error message?

Frozenice wrote on Wed, 09 November 2005 10:36& wtf .. renguard is allways haveing problems.

I've never had any problems with RenGuard.

Do you have an ATI card with the Omega Drivers?

If so, I found a bug in which if the ATI Tool taskbar is running you can't start Renegade with Renguard. Ill post a screenie when i get back from school.

Can you go more into detail about how it starts to load the game and then stops? What exactly do you see before it stops?

Scythar wrote on Thu, 10 November 2005 06:31Server full?

Hmm that's possible, Ren and RG do that to me when I direct connect to n00bstories and it's full, but I have never used gayspy and never will so I'm not too sure how that process works, but in my experience with direct connect, that very same thing happens.
