When I try to start up my FDS it looks like this:

Then closes right after it gets to 100% and reopens.
It was working fine, then I modified a sniping objects and all of the sudden it wont load.

This ussualy means the map crashed with Renegade. When you were modifying the map for sniper objects,

Make sure you didi'nt change any settings that the game cant handle. Or can't understand.

Try testing your map ingame first.

It wasnt a new map... I just added an objects instead of a script. Like, you cant buy anything else except snipers, etc.
