Been noticing renguard randomly kicks for bad/curupted game.exe
It works about half the time, the other half it kicks you.

Glitch in renguard?

I get it all the time.. it happens more when my net dies and my ip changes.. i join the server get
the youve just joined to a rg blah blah blah then rg pops up saying bad game..

I just uninstall it and reinstall it
And it works

Best thing to do is to turn off auto-launch Renegade. Then, when you start RenGuard, wait about
30 seconds before clicking the Renegade button. This will solve your problem unless you're using
a hacked RenGuard (eg, the bad game.exe).
