Hi.

I downloaded a No CD patch yesterday and now I cant get into the game it says

Unauthorized file game2.exe has been found in your renegade directory
Disconnected from RenGuard network

Any idea on how to fix this?

Try waiting 30 seconds before pressing "renegade" in the RenGuard menu.

If that doesn't work, list what you did to install the No-CD.

your probably not using an authorised RG no cd crack.

This one is approved by RG, try using it instead (assuming this is not the one you have)
