Music used to torture!

I don't post this to discuss the the good or bad parts of who was doing the torturing or where, but rather the quite humorous means that are being reported. In particular, this part of it.

Quote:kept detainees chained to walls, deprived of food and drinking water, immersed in darkness for weeks on end and forced to listen to continuous loud heavy metal and rap music, including songs by American hip-hop kings Dr. Dre and Eminem.

Well, rap sucks, so of course it can be used as a torture device. Whenever I hear it I feel like my ears are being raped with a rusty spoon.

Well, some people have better bladder control than others, and some can will themselves to not hear it, or for it not to effect them. Rap and Heavy Metal are hard genres of music to ignore.

If they start using the Barney theme song, those prisoners don't have a chance in hell.

Should you even be discussing politics? I'm sure all you know is, that the war "is for oil", and that President Bush is "evil", "stupid", and a "bullshitter".
