Why's it got "easy to use" on the file name?

Or you could use the Renalert exe. You get double site range
Although you are unable to host C&C_ mix files because they replaced the C&C thing only to view RA_

Well, on www.thekoss2.org/uploads you'll see there is an "old cd-crack" and an "easy to use" one. the "old" one is the one most or all ren players use, doing 1. install ren, 2. patch, 3. no-cd, 4. rg, ...

The easy to use one can be used after you installed RG if wanted ,it detects it itself.

I can fix that, post it up. I did it for A New Hope, C&C to ANH

I dont feel like downloading RenAlert to get the Exe.

EDIT:

Oh and i always used DJ Laptops:
