You might need some more solid proof

OK that's a known bug in RG 1.03, NOT a new bypass...RG, unfortunately, cannot scan for external programs that might try to influence Renegade...hopefully, that capability will come in 1.04/1.05...

How are you certain he/she used a bypass? Did he/she tell you? Cause I get alot of "OMG you cheat" for making 5 or 6 HS in a row, but hell, I dont cheat, I just aim @ the freaking heads.

No no no, your killing me stop it
lol how about, when they have no hand/barracks and you kill them in one shot with noobjet and they say

"OMG THEY GET NOTHING BUT HEADSHOTS!"

I had this done. Seriously.

No joke.

Dude, I'm not kidding. This guy was a total fucktard. And not to mention good with a sniper. And he couldnt realize that a blue bullet hittin lvl 1 infantry = kill. Goddam idiots.

The 'aimb0t' or actually clickbot is used more on sniper servers then you think. It is definitely a pain in the ass.

sry i keep bumping topics, but what the hell y start a new one

is it possible to find out if someone is using click bot to bypass? i know alot of people that are very good at sniping, but are they???

are these clickbot things programs that move peoples aiming to shoot someone so they dont have to?

damn, what a sad cheat; it takes all the fun out of the game for them and people they keep n00b killing.

No they can not move your croshairs. Nobody has made an actual AIMBOT for Renegade yet. Only clickbots exist.

Oh and stop bumping this thread

oh clickbot!

its obvious what that does now

I guess it mean that it shoots as soon as you go over the head of a enemy. But from what I heard, there is a real aimbot out there now.

Most of them are (Death_Adder's colorbot is the only one that worked even halfway decently in my Multiplayer Practice tests, and that state was achieved through quite a bit of tuning).
