Perhaps you're thinking of the C-130 drop editor?

<http://www.fileplanet.com/dl.aspx?/planetcnc/renegade/utilities/C-130DropEditor.zip>

Download this, it's Taximes' C-130 Drop script editor.

What happened when people used to edit their own drops? Besides that thing sucks. Barely anything you can do with it. You can get some cool drop mods in my mod packages. Just looks for Bisen's mod package 1, 2, 3, 4 at [renegadezone.com](#) or [renegadecentral.tk](#). MY favorite mod ive made is probably bot wars for islands. I think its in the 3rd. Possibly 4th.
