Hi everyone! listen, I updated C&C Ren. to v1.037, and after that, my game doesn't recognise the Cd, appears the no-cd message. My question is if anybody knows something for fix it up or info about a crack for that version? Plz help!

Simple, Download this.

And place it in your C:\westwood\renegade folder, it will ask to overwrite a Game.exe already in that folder, say yes. You should now be able to play without the CDs.

Uhh no, he meant to give a link to a no-cd executable... You can find one at UNRULES.com. I took mine from there.. and it works.

Well, I haven't tried it yet but thanks for both of you pals, if this crack is compatible with v1.037.
Thanks so much Ma1kel and TD!

- Yes it is! Thanks!
