Another test lacking a suitable option that is anything other than "yes" or "no." I wish somebody would allow for the possibility that someone could actually not give a flying fuck about some issues (i.e. think that they are either not relevant at all) or come down somewhere in between the left wing/right wing views. In other words, the test is rigged so that you CANNOT come down in the middle of anything.

Here's the funny part...I voted "disagree" or "strongly disagree" with anything that involved government subsidies or arbitrary regulation, and the damn thing STILL pegs me as an off-the-deep-end Liberal. I'd love to see exactly how THAT works out, because those choices alone ought to peg me somewhere on the more conservative side...the data:

Social Liberal
(78% permissive)*schniff schniff...* BULLSHIT!

Economic Liberal
(30% permissive)

"Strong Democrat"

You exhibit a very well-developed sense of Right and Wrong and believe in economic fairness.

loc: (105, -75)
modscore: (18, 47)
raw: (2244)

Hells, just seeing that Nodbugger came out as a "centrist" ought to tell you that something's wrong with the test...the results seem disproportionately LEFT of where they probably should be.

Yeah, it'd probably consider me a liberal, and I'm too lazy to find out. Also, if the tests are this left, where the fuck would SFE lay? O_O

Heh, I'm just under democracy, so don't think that I don't believe in it . I'm more in line with Gorbachev (according to the test) than a true socialist.

My law/whatever:

Quote:The content of all "art" in all forms, including (but not limited to), TV/Movies, music, video games, books, paintings/scultures, etc. can not be censored or altered by 3rd parties (a Network TV station, or a childrens museum, or anyone else that isn't the creator) for any purposes what-so-ever, and the creators of said art can not be forced to self-censor by a 3rd party. The only alteration that is allowed by 3rd parties would be the addition of commercial breaks in Movies.

A movie has too much violence/gore, nudity/sex, cursing/swearing? Either don't show it, or put a disclaimer before the movie.

I've noticed a lot lately that networks are lightening up on censoring movies. "God Damn" isn't really censored any more, I've seen "Shit" show up a few times (even on the History channel a couple times), "Fuck" was uncensored a couple times on one of the major networks (and the

History channel). I've also recently seen the original Die Hard on a network TV channel without any censoring or editing. And I've also saw the middle finger many times on network TV. (and again, at least once on the History channel)

I'm on Dubya, almost to Ronald. I guess this test isn't as "left" as I thought it was. I guess it's more accurate than I thought.
