First of all, I want to say that I grabbed my CDs of Renegade once again of the bunch of games I have.

I played it before in top-10 clans, and their dead now.. (of course).

I prefer a European clan, because I don't want to have a war in the middle of the night.. So, +1 GMT..

I have TS+mic.. so no problem for that

Somebody want me?

define top-10 clans? Because if you mean on the WOL ladder, you can do that by playing one game
