Nothing big, just some fan site i found looking through google for images.

<http://members.lycos.nl/ccrenegade/game/game.htm>

It has a lot of neat information and pictures from the older version. I recommend the dev. team section, directly points out each member of the development team of one picture.

Just take a look if your bored, the site is dreadfully ugly, I might warn you guys. (Might be too late.)

I've never seen some of the pictures in the art gallery.

Ugh... I unfortunately remember KingZeus. He was a stuck up asshole that acted as if he was the ultimate authority in Renegade prior to its release. Funny how ccrenegade.com died shortly after the game was released - WS had some stupid picks for people to visit the studio.

Anybody know the URL to Tas' website? I've been to it before, but I feel like going to it again.

Is KingZeus that guy that looks like Kane in the game, or the other one?
