If you post the content here, we can actually SEE what is wrong.

Click the post reply button, then under the box where you say what to post is a part called File Attachments, click Browse... and select the screenshot file and then hit upload.

You can either have IsClanGame=Yes and IsQuickMatch=No, or IsClanGame=No and IsQuickMatch=Yes.

Not both 'YES' at the same time. If you had just typed that error message, it would've been sufficient.
